

KEUKENSTUDIO ALLROUND IS READY FOR 2024

What trends can we expect?

By André Kroeze

After an inspiring kitchen fair in Germany, Keukenstudio Allround is preparing for a phenomenal new range. In the coming period the showroom fills with new setups in which the latest trends are visible.

What is striking is the rise of kitchens with a natural look, fronts with a wood decor of Italian walnut or classic oak with warm tones. The combination with a (semi-)island and a large dining table makes it an attractive, pleasant place to spend time with your family after a busy day. The kitchen is increasingly being coordinated with the rest of the house and thus forms one whole by, for example, designing the utility room, display cabinets and wardrobes in the same style.

Equipment suppliers are also not standing still and are coming up with innovative solutions and fresh new colors. V-zug is a renowned equipment supplier from Switzerland who, in addition to the existing black and platinum color lines, now offers the 'pearl' line, a beautiful champagne color that works well fits in with the natural look. V-ZUG also offers a 10-year warranty on their equipment, which is unique!

MODELS AND COLORS**

BORA'S NEW PRODUCTS

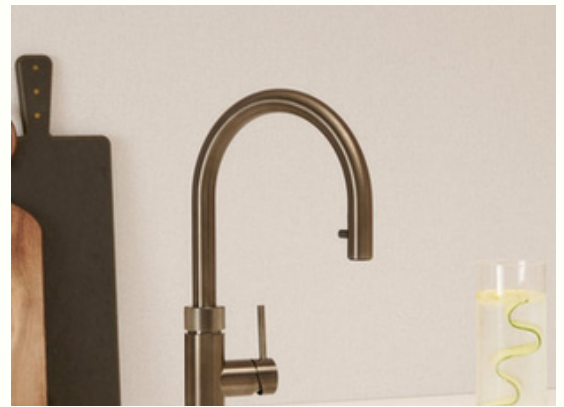

Height adjustable

V-ZUG dishwashers are designed to prevent physical complaints caused by loading and unloading. Thanks to the unique hinge system, the appliance can be seamlessly integrated into your kitchen furniture, regardless of its height. Dishwashers with OptiLift lift the lower basket to the height of the upper basket. This way you don't have to strain your back when loading and unloading the dishes.

Quooker's new models

Quooker is also launching new models and colors. The boiling water tap is now also available in the new colors rose copper and gunmetal and available in taps with a round or straight spout

More than a steam oven

Bora, the well-known hob supplier, has expanded its range with a new professional multifunctional steam oven for at home, the BORA X BO

For every budget.

Keukenstudio Allround offers a wide range of kitchens, equipment and worktops. Each customer is welcomed into our cozy studio and discusses their wishes with André the new kitchen. For people with a small wallet, there is also a lot to choose from in the studio. With the same personal attention, a beautiful and unique 3D design and the same service, it is possible to achieve a beautiful, new kitchen design.
